

**GTÜ – Bioinformatics and Systems Biology MSc Program**  
**Seminar Series**

*Identification of Theranostic Gene Expression Markers for Various  
Cancer Types and Validation of Prognostic Markers in Colorectal Cancer*

*by*

**Murat İşbilen, MSc**

PHI Tech Bioinformatics

**Date:** 10.10.2017

**Time:** 13:00

**Location:** Molecular Biology and Genetics Building – Conference Room

Murat İşbilen received his BSc degree from Molecular Biology and Genetics Department, Bilkent University in 2012. He received his MSc degree from the same department in 2015 after studying in the field of translational research in combination with bioinformatics and biostatistics. He worked as biotechnology production assistant specialist in Arven Pharmaceuticals and is currently working as R&D Manager in PHI Tech Bioinformatics.
