2nd International Conference on Environmental Science and Technology

The local organizing committee would like to invite you to the **2nd international Conference on Environmental Science and Technology – 2014 (ICOEST'2014 - Side)** which will be held from 14 - 17 May 2014 in Side, Antalya-Turkey and will continue in the tradition of the precedent ICOEST 2013 that took place in Cappadocia and was attended by approximately 750 delegates from 54 different countries.

As the organizers of the conference, we aim to provide a unique communication and discussion platform for environmental scientists as well as any discipline of science aiming the protection of the environment.

The main goals of ICOEST 2014 are

- Presenting current researches being carried out in the environmental engineering area for scientists, scholars, engineers and students from the universities all around the World
- Linking pioneering research with present and emerging/up-coming environmental issues
- Discussing fundamentals of pollutant fate in the environment
- Generating awareness for emerging environmental problems

Providing opportunities for the delegates to exchange new ideas and application experiences face to face, to establish business or research relations and to find global partners for future collaboration.

All the papers, that will be submitted to the conference, will undergo a review process for either oral or poster presentation. A *selected number* of papers or posters (to be presented in the ICOEST'2014) will be published in "*the Journal of Selcuk University Natural and Applied Science*" which is an international journal publishing full-length original research papers containing new and significant information.
