

Seminars in Biotechnology BTEC 591 & BTEC 691

“Biotech Applications are Waiting to be Adapted to Industry: A background Story between Academia and Industry”

Thursday, October 27, 2022

13:00

GTU Institute of Biotechnology, Lecture Hall

Dr. Saadet ALPDAGTAS

Research Assistant, Van Yuzuncu Yil University

Saadet Alpdagtas received her B.S. in Biology from Ihsan Marmara University (2005), and her Ph.D. in Bioengineering from Yıldız Technical University (2018). She worked as a postdoctoral scholar at the Heinrich Heine Dusseldorf Universitat in Biochemistry (2021-2022). She is the founder of Bio4Life Biotechnology R&D. Her research interests include chemical engineering and technologies, biotechnology and enzyme engineering, biochemistry and protein engineering and has number of publications about the industrial and microbial biotechnology.
